## **ATTACHMENT VIII**

### **Illicit Connection/Illegal Discharge Program: A Description**

#### **City of Pico Rivera**

Our inspectors, code enforcement officers, and field personnel are trained to report any possible illicit connection or illegal discharge. They notify Public Works immediately and a supervisor is dispatched to investigate and complete a IC/ID Report Form. Once the source of the discharge is located, the owner is contacted.

We also send a letter indicating that the property owner is in violation of the City's Storm Water Ordinance. We order the owner to cease the discharge and that he/she is responsible for cleanup. If the cleanup is not satisfactory, city crews will clean and we will charge the owner for the expense.

We monitor the property to ensure that the owner complies.
